

## **SUICIDE PREVENTION POLICY**

North Oakland Community Charter School (NOCCS) recognizes that suicide is a major cause of death among youth and should be taken seriously. In an effort to reduce suicidal behavior and its impact on students and families, the NOCCS has developed prevention strategies and intervention procedures.

In compliance with Education Code section 215, this policy has been developed in consultation with the Charter School and community stakeholders, NOCCS school-employed mental health professionals, administrators, other school staff members, parents/guardians/caregivers, students, local health agencies and professionals, the county mental health plan, law enforcement, and community organizations in planning, implementing, and evaluating NOCCS's strategies for suicide prevention and intervention. NOCCS must work in conjunction with local government agencies, community-based organizations, and other community supports to identify additional resources.

The purpose of this policy is to protect the health and well-being of all of our students by having procedures in place to prevent, assess the risk of, intervene in, and respond to youth suicidal behavior. Protecting the health and well-being of all students is of utmost importance to our school and is in line with school mandates for all professionals and individuals working with youth. Because it is impossible to predict when a crisis will occur, preparedness is necessary for every school. Youth suicide is preventable, and parents, educators and schools are key to prevention. Preventing suicide depends not only on suicide prevention policies, but also on a holistic approach that promotes healthy lifestyles, families, and communities. Thus, this policy is intended to be paired with other policies and efforts that support the emotional and behavioral well-being of youth.

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, the NOCCS shall appoint an individual (or team) to serve as the suicide prevention point of contact for the Charter School. The suicide prevention point of contact for NOCCS and the Head of School shall ensure proper coordination and consultation with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a Medi-Cal beneficiary. This policy shall be reviewed and revised as indicated, at least annually in conjunction with the previously mentioned community stakeholders.

### **Suicide Prevention Crisis Team**

To ensure the policies regarding suicide prevention are properly adopted, implemented, and updated, NOCCS created an in-house Suicide Prevention Crisis Team (“SPCT”) consisting of administrators, relevant staff, parents, and students. NOCCS designates the following administrators to act as the primary suicide prevention liaisons to lead the SPCT:

1. Head of School

Functions of the SPCT are to:

- Review mental health related school policies and procedures;
- Provide annual updates on school and district data and trends;
- Review and revise school prevention policies;
- Review and select general and specialized mental health and suicide prevention training;
- Review and oversee staff, parent/guardian, and student trainings;
- Ensuring the suicide prevention policy, protocols, and resources are posted on the district and school websites;
- Collaborate with community mental health organizations,
- Identify resources and agencies that provide evidence-based or evidence-informed treatment,
- Help inform and build skills among law enforcement and other relevant partners, and
- Collaborate to build community response.

### **Employee Qualifications and Scope of Services**

Employees of NOCCS must act only within the authorization and scope of their credential or license. While it is expected that school professionals are able to identify suicide risk factors and warning signs, and to prevent the immediate risk of a suicidal behavior, treatment of suicidal ideation is typically beyond the scope of services offered in the school setting. In addition, treatment of the mental health challenges often associated with suicidal thinking typically requires mental health resources beyond what schools are able to provide.

### **Parents, Guardians, and Caregivers Participation and Education**

1. Parents/guardians/caregivers may be included in suicide prevention efforts. At a minimum, the Charter Schools shall share this Policy with parents/guardians/caregivers by notifying them where a complete copy of the policy is available.

This Suicide Prevention Policy shall be easily accessible and prominently displayed on the Charter School's Web page and included in the parent handbook.

2. Parents/guardians/caregivers should be invited to provide input on the development and implementation of this policy.
3. Charter School shall establish and widely disseminate a referral process to all parents/guardians/caregivers/families, so they are aware of how to respond to a crisis and are knowledgeable about protocols and school, community-based, and crisis resources.
4. Community-based organizations that provide evidence-based suicide-specific treatments shall be highlighted on the Charter School's website with treatment referral options marked accordingly.
5. Staff autoreplies during vacations or absences shall include links to resources and phone/text numbers so parents and students have information readily available.
6. All parents/guardians/caregivers may have access to suicide prevention training that addresses the following:
  - a. Suicide risk factors, warning signs, and protective factors.
  - b. How to talk with a student about thoughts of suicide. How to respond appropriately to the student who has suicidal thoughts. Such responses shall include constant supervision of any student judged to be at risk for suicide and referral for an immediate suicide risk assessment.
  - c. Charter School's referral processes and how they or their children can reach out for help, etc.
7. Parents/guardians/caregivers are reminded that the Family Educational Rights and Privacy Act ("FERPA") generally protects the confidentiality of student records, which may sometimes include counseling or crisis intervention records. However, FERPA's health or safety emergency provision permits the disclosure of personally identifiable information from a student's education records, to appropriate parties, in order to address a health or safety emergency when the disclosure is necessary to protect the health or safety of the student or other individuals.

### **Student Participation and Education**

Messaging about suicide has an effect on suicidal thinking and behaviors. Consequently, NOCCS along with its partners has carefully reviewed and will continue to review all materials and resources used in awareness efforts to ensure they align with best practices for safe messaging about suicide. Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with NOCCS and is characterized by caring staff and harmonious interrelationships among students.

NOCCS's instructional and student support program shall promote the healthy mental, emotional, and social development of students including, but not limited to, the development of problem-solving skills, coping skills, and resilience. The instruction shall not use the stress model to explain suicide.

The Charter School's instructional curriculum may include information about suicide prevention, as appropriate or needed. If suicide prevention is included in the Charter School's instructional

curriculum, it shall consider the grade level and age of the students and be delivered and discussed in a manner that is sensitive to the needs of young students. Under the supervision of an appropriately trained individual acting within the scope of her/his credential or license, students shall:

1. Receive developmentally appropriate, student-centered education about the warning signs of mental health challenges and emotional distress. The content of the education may include:
  - a. Coping strategies for dealing with stress and trauma.
  - b. How to recognize behaviors (warning signs) and life issues (risk factors) associated with suicide and mental health issues in oneself and others.
  - c. Help-seeking strategies for oneself and others, including how to engage school-based and community resources and refer peers for help.
  - d. Emphasis on reducing the stigma associated with mental illness and the fact that early prevention and intervention can drastically reduce the risk of suicide.
2. Receive developmentally appropriate guidance regarding the Charter School's suicide prevention, intervention, and referral procedures.

Student-focused suicide prevention education can be incorporated into classroom curricula (e.g., health classes, orientation classes, science, and physical education).

The Charter School will support the creation and implementation of programs and/or activities on campus that raise awareness about mental wellness and suicide prevention (e.g., Mental Health Awareness Week, Peer Counseling, , and National Alliance on Mental Illness on Campus).

Charter School maintains a list of current student trainings and is available upon request. Charter School has shared school-based supports and self-reporting procedures, so students are able to seek help if they are experiencing thoughts of suicide or if they recognize signs with peers. Although confidentiality and privacy are important, students should understand safety is a priority and if there is a risk of suicide, school staff are required to report. Charter-based mental health professionals are legally and ethically required to report suicide risk. **When reporting suicidal ideation or an attempt, school staff must maintain confidentiality and only share information limited to the risk or attempt.**

Charter School shall establish and widely disseminate a referral process to all students, so they know how to access support through school, community-based, and crisis services. Students shall be encouraged to notify a staff member when they are experiencing emotional distress or suicidal ideation, or when they have knowledge or concerns of another student's emotional distress, suicidal ideation, or attempt.

### **Intervention and Emergency Procedures**

Whenever a staff member suspects or has knowledge of a student's suicidal intentions, they shall promptly notify the primary designated suicide prevention liaison. If this primary suicide prevention liaison is unavailable, the staff shall promptly notify the secondary suicide prevention liaison.

The suicide prevention liaison shall immediately notify the Head of School or designee, who shall then notify the student's parent/guardian as soon as possible if appropriate and in the best interest of the student. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

The suicide prevention liaison shall also refer the student to mental health resources at NOCCS or in the community.

When a student is in imminent danger (has access to a gun, is on a rooftop, or in other unsafe conditions), a call shall be made to 911. The call shall NOT be made in the presence of the student and the student shall not be left unsupervised. Staff shall NOT physically restrain or block an exit.

When a suicide attempt or threat is reported on campus or at a school-related activity, the suicide prevention liaison shall, at a minimum:

1. Ensure the student's physical safety by one or more of the following, as appropriate:
  - a. Securing immediate medical treatment if a suicide attempt has occurred.
  - b. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.
  - c. Keeping the student under continuous adult supervision until the parent/guardian and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
  - d. Remaining calm, keeping in mind the student is overwhelmed, confused, and emotionally distressed.
  - e. Moving all other students out of the immediate area.
  - f. Not sending the student away or leaving him/her alone, even to go to the restroom.
  - g. Providing comfort to the student, listening and allowing the student to talk and being comfortable with moments of silence.
  - h. Promising privacy and help, but not promising confidentiality.
2. Document the incident in writing as soon as feasible.
3. Follow up with the parent/guardian and student in a timely manner to provide referrals to appropriate services as needed and coordinate and consult with the county mental health plan if a referral is made for mental health or related services on behalf of a student who is a MediCal beneficiary. Determination of notification to parents/guardians/caregivers should follow a formal initial assessment to ensure that the student is not endangered by parental notification.

4. After a referral is made, the Charter School shall verify with the parent/guardian that the follow up treatment has been accessed. Parents/guardians will be required to provide documentation of care for the student. If parents/guardians refuse or neglect to access treatment for a student who has been identified to be at risk for suicide or in emotional distress, the suicide prevention liaisons shall meet with the parent to identify barriers to treatment (e.g., cultural stigma, financial issues) and work to rectify the situation and build understanding of care. If follow up care is still not provided, the Charter School may contact Child Protective Services.
5. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at the Charter School.
6. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event a suicide occurs or is attempted on the NOCCS campus, the suicide prevention liaison shall follow the crisis intervention procedures contained in NOCCS's safety plan. After consultation with the Head of School or designee and the student's parent/guardian about facts that may be divulged in accordance with the laws governing confidentiality of student record information, the Head of School or designee may provide students, parents/guardians, and staff with information, counseling, and/or referrals to community agencies as needed. Charter School staff may receive assistance from NOCCS professionals in determining how best to discuss the suicide or attempted suicide with students.

In the event a suicide occurs or is attempted off the NOCCS campus and unrelated to school activities, the Head of School or designee shall take the following steps to support the student:

1. Contact the parent/guardian and offer support to the family.
2. Discuss with the family how they would like the Charter School to respond to the attempt while minimizing widespread rumors among teachers, staff, and students.
3. Obtain permission from the parent/guardian to share information to ensure the facts regarding the crisis are correct.
4. The suicide prevention liaisons shall handle any media requests.
5. Provide care and determine appropriate support to affected students.
6. Offer to the student and parent/guardian steps for re-integration to school. Re-integration may include obtaining a written release from the parent/guardian to speak with any health care providers; conferring with the student and parent/guardian about any specific requests on how to handle the situation; informing the student's teachers about possible days of absences; allowing accommodations for make-up work (being understanding that missed assignments may add stress to the student); appropriate staff maintaining ongoing contact with the student to monitor the student's actions and mood; and working with the parent/guardian to involve the student in an aftercare plan; providing parent's/guardians/caregivers/families local emergency numbers for after school and weekend emergency contacts.

## **Supporting Students during or after a Mental Health Crisis**

Students shall be encouraged through the education program and in NOCCS activities to notify a teacher, the Head of School, another school administrator, psychologist, NOCCS counselor, suicide prevention liaisons, or other adult when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions. Staff should treat each report seriously, calmly, and with active listening and support. Staff should be non-judgmental to students and discuss with the student and the student's parent/guardian about additional resources to support the student.

## **Responding After a Suicide Death (Postvention)**

A death by suicide in the school community (whether by a student or staff member) can have devastating consequences on the school community, including students and staff. The Charter School shall follow the below action plan for responding to a suicide death, which incorporates both immediate and long-term steps and objectives:

The suicide prevention liaison shall:

1. Coordinate with the Head of School to conduct an initial meeting of the Suicide Prevention Crisis Team to:
  - a. Confirm death and cause.
  - b. Identify a staff member to contact deceased's family (within 24 hours).
  - c. Enact the Suicide Postvention Response.
  - d. Notify all staff members (ideally in-person or via phone, not via e-mail or mass notification).
2. Coordinate an all-staff meeting, to include:
  - a. Notification (if not already conducted) to staff about suicide death.
  - b. Emotional support and resources available to staff.
  - c. Notification to students about suicide death and the availability of support services (if this is the protocol that is decided by administration).
  - d. Share information that is relevant and that which you have permission to disclose.
3. Prepare staff to respond to needs of students regarding the following:
  - a. Review of protocols for referring students for support/assessment.
  - b. Talking points for staff to notify students.
  - c. Resources available to students (on and off campus).
4. Identify students significantly affected by suicide death and other students at risk of imitative behavior, and refer them to a school-based mental health professional.
5. Identify students affected by suicide death but not at risk of imitative behavior.
6. Communicate with the larger school community about the suicide death. Staff shall not share explicit, graphic, or dramatic content, including the manner of death.
7. Consider funeral arrangements for family and school community.

8. Respond to memorial requests in respectful and non-harmful manner; responses should be handled in a thoughtful way and their impact on other students should be considered.
9. Identify media spokesperson if needed.
10. Ensure that all communications, documents, materials related to messaging about suicide avoid discussing details about method of suicide, avoid oversimplifying (i.e. identifying singular cause of suicide), avoid sensational language, and only includes clear, respectful, people-first language that encourages an environment free of stigma. As part of safe messaging for suicide, we use specific terminology when referring to actions related to suicide or suicidal behavior:

DO USE	DO NOT USE
"Died by suicide" OR "Took their own life."	"Committed suicide" Note: Use the the work "commit" can imply crime/sin
"Attempted suicide"	"Successful" or "unsuccessful" Note: There is no success, or lack of success, when dealing with suicide

11. Include long-term suicide postvention responses:
  - a. Consider important dates (i.e., anniversary of death, deceased birthday, graduation, or other significant event) and how these will be addressed.
  - b. Support siblings, close friends, teachers, and/or students of deceased.
  - c. Consider long-term memorials and how they may impact students who are emotionally vulnerable and at risk of suicide.

### **Student Identification Cards**

Charter School will include the telephone numbers on all student identification cards:

- National Suicide Prevention Lifeline/Suicide Crisis Lifeline:
  - Call or Text "988"
  - Call 1-800-273-8255
- National Domestic Violence Hotline: Call 1-800-799-7233
- Crisis Text Line: Text "HOME" to 741741
- Teen Line: Text "TEEN" to 839863
- Trevor Project: Text "START" to 678678
- Trans Lifeline: 1-877-565-8860
- Local suicide prevention hotline telephone number
